DETAILED ACTION

This is an Allowance for application no. 10/082,682 in response to the RCE filed on February 21, 2006 where in claims 1-14 and 16-18 are presented for examination.

Allowable Subject Matter

Claims 1-14 and 16-18 are allowed.

The following is an examiner's statement of reasons for allowance: The claims are allowable over the prior art of record since the cited references taken individually or in combination fail to particularly disclose a method and system for providing covert remote wireless video surveillance of a remote location as required by the claims.

The closest prior art (US Patent Application 2002/0057365 to Brown) discloses a similar system and method for wireless video surveillance. However, Brown fails to particularly teach or suggest "covert remote wireless video surveillance", "the packetizing the digital electrical signals into a secure pre-selected IP protocol format", and "displaying the digital video signals on the plurality of user terminals for simultaneous viewing by more than one user" as claimed. These features taken with the others in the claims teach over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
